Community Heroes Awards

In our communities we have citizens, young and old, who are using their time, talents, imaginations, and caring hearts to save and improve the lives of those around them. We have some who jump into action to deliver CPR to save lives, even though they might not be a doctor, nurse or paramedic.

We have young people who reach out to seniors in need of care or kind words. We have others who read a book to those who can no longer see. Others clean up a local park, so it is safe and inviting for families to enjoy.

Do you know someone who has been hero in your community? Who is someone who has changed lives for the better and never asked for recognition? Do you know someone who has saved a life or been there just when someone needed them most and taken action?

Now is the time to honor those individuals who make our communities better because of their selfless acts. Who makes your community a special place to live your life?

Please complete the nomination form and return to contact@peaceconference2020.org

Thank you,

Rudy
